Evison Matafale

(solo)
step down babylon you are old
step down babylon you are ill
step down babylon you are old
step down babylon you are ill

you have never seen an overthrow
king Emmanuel will take over
you have never seen an overthrow
king Selassie I will rule again

chorus
step down babylon you are old
step down babylon you are ill
step down babylon you are old
step down babylon you are ill(you are not ready)

You break off from heaven
you are harmless li to God
you infest your land with misfortune
make Jah people dance to your tune
you have have faced your punishment
coz the goodness is coming about

chorus
step down babylon you are old
step down babylon you are ill
step down babylon you are old
step down babylon you are ill

king Emmanuel will take over
you have never seen an overthrow
king Selassie I will live again

chorus
step down babylon you are old
step down babylon you are ill(you are not fine)
step down babylon you are old

step down babylon you are ill(you are not ready)

The freedom of black man
you disturb ever since
you enslaved I n I
for no gain but vanity
your head is just a big box
carrying out very small brain
and you make a lot of noise
not to comfort but to scare
(yeah man)

chorus
step down babylon you are old
step down babylon you are (you are not fine)
step down babylon you are old
step down babylon you are (you are not ready)

you have never seen an overthrow
king Emmanuel will take over
you have never seen a take over
king Jesus christ will take over

step down babylon you are old
step down babylon you are (you are not ready)
step down babylon you are old
step down babylon you are (you are not fine)

you have never seen an overthrow
king Emmanuel will take over
you have never seen an overthrow
king Selassie I will live again

step down babylon you are old
