

Shot in the Head

Weekend Nachos

Will I be missed by this beautiful world?
Frozen in time
Too caught up in giving 'em hell
To know you're alive And it's all right here
Will I be missed by this beautiful world?
And it's all right now Like being shot in the head
Shot in the head
Shot into heaven
Shot into heaven Well I've been hit by a dizzy spell
I want to make it alright
You know you had it in you
Wrong place, wrong time And it's all right here
Will I be missed by this beautiful world?
And it's all right now Like being shot in the head
Shot in the head
Shot into heaven
Shot into heaven Without a hitch and when it goes
It's all you get to carry on
Because we can't go it alone
Go it alone
Go it alone
Nobody Will I missed by this beautiful world?
Frozen in time
Life too short to live in hell
F***ing open your eyes Like being shot in the head
Shot in the head
Shot into heaven
Shot into heaven Shot in the head...
