If You Play Your Cards Right

Syleena Johnson

Something on your mind
I feel it everytime I'm with you
If what you like to do
Is something I like too, let's get it tightIf you play the cards right
Everything will be alright with me
If you play the cards right
Everything will be alright with meYou won't have to hide
What you feel inside and be afraid to talk to me
Love is guaranteed
Play them right with me and you will seeIf you play the cards right
Everything will be alright with me
If you play the cards right
Everything will be alright with meIf you play the cards right
Everything will be alright with me
If you play the cards right
Everything will be alright with meIf you play the cards right
Everything will be alright with me
If you play the cards right
Everything will be alright with meIf you play the cards right
Everything will be alright with me
If you play the cards right
Everything will be alright with meIf you play your cards right
Everything's gonna be alright
If you play your cards right with me
If you play your cards right
Everything's gonna be alright
If you play your cards right with meIf you play your cards right
Everything's gonna be alright
If you play your cards right with me
If you play your cards right
Everything's gonna be alright
If you play your cards right with meIf you play your cards right
Everything's gonna be alright
If you play your cards right with me
If you play your cards right
Everything's gonna be alright
If you play your cards right with meIf you play your cards right
Everything's gonna be alright
If you play your cards right with me

If you play your cards right
Everything's gonna be alright
If you play your cards right with meIt's gonna be alright
It's gonna be alright
