

R.U.L.E

Ja Rule

Yeah, yeah

Yeah, yeah

You know

Lets go

Yeah, yeah

Yeah, whut's my name? They cool but they ain't R.U.L.E

They do but don't do it like me

Nobody, nobody, does it like R.U.L.E

They do but don't do it like me

Nobody, nobody, does it like R.U.L.E Nobody's livin' life the way that I live it

Nobody's spittin' and doin' it, I spit it

But who fuckin' admitted

I'm one of the bigger biggest of niggaz that done did it

Been hated and dealt wit it, when agents tap in my lyrics

So by the time that they hear it, the crime's already committed

Natural Born Killa, but that I'm already and then

Murdah was the case, but INC's been acquitted The Agency's gettin' livid, they wanted us to be finished

But we got unfinished business, Sned God as my witness

This is another testimony to my life and my story

Askin' you hoes, why should I talk when I got guns to speak for me?

Don't come at me homie especially tryin' to act like you know me

Only if you can control me, know where you been chosen before me

To sit in ya grave, homie dig it, I'm hearin' its lonely, but see Nobody does it like me

And they know it they can't spit it the same

But still they try, 'cuz that's part of the game, whut's my name?

They cool but they ain't R.U.L.E

They do but don't do it like me

Nobody, nobody, does it like R.U.L.E

They do but don't do it like me

Nobody, nobody, does it like R.U.L.E These niggaz incredible, throughout the ghettos of America

People, see these window I see through

Off they mirror they evil, jealous bullshit that men do

Had I known it was you, there'd be no clue on who done killed you

Like when Kane murda Able, niggaz must have been able

To put Kane through they nasals, they so high they see angels

I see life from all angels, tangled, webs and weaves Now niggaz is able to kill like Kane all over the streets

100 degrees ferenheite, hot as the hottest summer night

Heatin' up desperately in the need of some ice, I'm nice

Nobody's quite like, flow like rare blood types

I be wrong if I'm right, right if I'm wrong, I was the rule born
When my legacy is left through my boys maiden name live on rule
Niggaz is foolish tryin' to do whut I do, 'cuz see Nobody does it like me
And they know it they can't do it the same
But still they try, 'cuz that's part of the game whut's my name?
They cool but they ain't R.U.L.E
They do, but don't do it like me
Nobody, nobody, does it like R.U.L.E
They do but don't do it like me
Nobody, nobody, does it like R.U.L.E They cool but they ain't R.U.L.E
They do, but don't do it like me
Nobody, nobody, does it like R.U.L.E
They do but don't do it like me
