Forever

Kamelot

There's a pain within That I can't define There's an empty space Where your love used to shine From the night we met Till the day you died Do you think I wished? Do you still believe I tried? All too soon we were divided And life had just begun Will you revive from the chaos in my mind Where we still are bound together? Will you be there waiting by the gates of dawn When I close my eyes forever? I belong to you You belong to me It's the way things are Always meant to be Like the morning star And the rising sun You convey my life And forgive me what I've done All too soon we were divided In the darkness and light Will you revive from the chaos in my mind Where we still are bound together? Will you be there waiting by the gates of dawn When I close my eyes forever? Forever Save me Reverse how I'm thinking of you Every breath I take brings me closer

Closer to forever, to you
I'm waiting for the day that I'm gone
All too soon we were divided
And life had just begun
Will you revive from the chaos in my mind
Where we still are bound together?
Will you be there waiting by the gates of dawn
When I close my eyes forever?

Will you be there waiting by the gates of dawn When I close my eyes forever?
