

The Way Is Love

Roy Orbison

If I Could be the one to write the rules
I'd write the whole wide world to come back to the school
Where you learn who to lay the law
Without listening to the fools. Who would break just to break
And take just to take
But together we can find another way
Like i feel for you.
A feeling that is true.
The Way Is Love. Life is so much better
When the way is love
And every song's a good song
And everyone can sing along
The Way Is Love
An always understood song. The Way Is Love
It's in the air tonight.
The Way Is Love makes everything alright
And the way is love.
The Way Is Love.
