Turn Da Lights Off

Tweet

Boy, why don't you put the needle on the record
Turn da lights off
Let's get closer than closer than most
Turn da lights off
I think we can get to know each other better if we
Turn da lights off
And let's grab a glass and make a toast with me
You and I, in a room so dark
Hold me tight, all night, lights off
Kiss me, everywhere, I could ever dreamed
It's like heaven, heaven
You gotta put the needle back on the record
Turn da lights off
Let's get closer than closer than most
Turn da lights off
I think we can get to know each other better if we
Turn da lights off
And let's grab a glass and make a toast
Here we are, you and me, just us two
I'm feelin' high, so high, what about you
Don't hold back, let it go, show me how you feel
Ride it all night, all night, like I'm going
Put the needle back on the record
Turn da lights off
Let's get closer than closer than most
Turn da lights off
I think we can get to know each other better if we
Turn da lights off
And let's grab a glass and make a toast
Hit the switch to the lights tonight
And make it right like a first class flight
We ignite like smoking a pipe
Turn it up like we rockin' the mic
You get my hype I feel horny and trife
So polite you might make me your wife
I ain't right the way I'm livin' my life
See how I am when you turn off da lights
I gotta Jones all down in my bones
I gotta lil' twitch up in my spine

And if I let you go and feel on me
You gone have to play this one mo' time
You gotta put the needle back on the record
Turn da lights off
Let's get closer than closer than most
Turn da lights off
I think we can get to know each other better if
Turn da lights off
And let's grab a glass and make a toast
You gotta put the needle back on the record
Turn da lights off
Let's get closer than closer than most
Turn da lights off
I think we can get to know each other better if
Turn da lights off
And let's grab a glass and make a toast
