

# Who Let In the Rain

[Cyndi Lauper](#)

Things like this can always take a little time  
I always thought we'd be together down the line  
We start to fight and can't get over, over what was said  
'Cause you see black and white and I see red And I wonder who let in the rain  
You know without you I'm not the same, no  
Oh when love gets strong people get weak  
Sometimes they lose control and wind up in too deep  
They fall like rain, who let in the rain? Make the bed and cover where you used to sleep  
I'm smoothing over promises made in these sheets  
Envy lovers passing by out on the street, oh  
'Cause what they have I couldn't keep And I wonder who let in the rain  
You know without you I'm not the same, no  
Oh when love gets strong people get weak  
Sometimes they lose control and wind up in too deep  
They fall like rain, who let in the rain? Who let in the rain? And I wonder who let in the rain  
You know without you I'm not the same, no  
Oh when love gets strong people get weak  
Sometimes they lose control and wind up in too deep  
They fall like rain, who let in the rain? Who let in the rain?  
Who let in this rain? Who let in the rain? Let in, who let in the rain?  
Who let in this rain? Who let in the rain?  
Who let in the, who let in the, who let in the  
Who let in, who let in, who let in the rain?  
Who let in the rain, rain, rain, rain, rain, rain, rain?
