

Basement

Corey Smith

We don't talk about it
We never wanted you to go
It's so sad to think that we can't hang in your basement anymore
The hurt it stays inside us cause our feelings we don't show
But we'll miss the days when we were flying underneath the floor
You know we're gonna miss you
Now that you're gone
As we're living we just don't think about our friends moving on no no no no
But we're gonna miss you
Now that you're gone

And if you need fun
You know we'll be here when you come back home
So come back home yeah
Come back home

Well I know that moving on is part of staying at where you need to be
But we just dont wanna let go of all those drunken memories
And now when we get together
Things just won't be the same
No we won't make it through one geeked up night
Without mentioning your name oh
Cause we're gonna miss you
Now that you're gone
As we're living we just don't think about our friends moving on no no no no
But we're gonna miss you
Now that you're gone

And if you need fun
You know we'll drink more than one when you come back home
So come back home yeah
Come back home

Why do things change
Why can't they stay the same
Do we have to face the pain of not feeling
That, that good again

Oh cause we're gonna miss you
Now that you're gone

As we're living we don't have time to think of our friends moving on no no no no

But we're gonna miss you

Now that you're gone

And if you need fun

You know we'll be here when you come back home

So come back home yeah

Come back home

No we don't talk about it

We never wanted you to go

It's so sad to think that we can't hang in your basement anymore

Na na na na na na
