Come Together

MC5

I am out, you are in, let us form a link
And move in rhythms
Slide apart and slide apart
Come together, yes, together in the darkness
Come with meLet us dance the, let us dance the dance
The dance from which all dances come
Yes, together in the darkness, astounding, oh
Together mama, yes yes yes
Together momma, yes yes yes yes
Yes yes yes yes, yes yesAll the guiding rhythms lover
All the nerve that takes a lover
Nipples stiffen, nipples stiffen
Nipples stiffen, mamaLet me give tongue to it, yes
Let me give tongue to it, yes
Together in the darkness, come with me, oh
Yes yes yes, together momma
Yes yes yes, yes yes yes, yes yes, wowOh, God, it's getting closer
Oh and when it gets closer
Oh, God it's so close now
God it's so close, yes yes yes
Yes yes yes yes yes, yes yes yes, ohAll right, build to a rising
Build to a gathering, build to a quaking
Build to eruption, build to a peak
And fall gasping over
Together, yes, together in the darknessOww! Now, now, now
Oww! Oww! Oww! Yow
