strange world

The Good Morning Diary

On Santa Monica city hill
We watch the people who gather here
We're uninvited who lost their way
And now we're all here to stay
Chorus:
And it's a strange world, there's nothing to it
Strange world, I'm getting through it
Strange world, we get it over
It's a strange world after all!
.the colorful lives we run
To catch the glimpse of the setting sun
I can't imagine how life would be
If you're not here with me!
Chorus:

Strange world ta ta ta
Strange world after all.
...The sky is so blue
You take... and I love you!
You can drag your car to the.
Or ride your bicycle anywhere
It doesn't matter that much to me
cause we're pretty...
Chorus:
And it's a strange world, there's nothing to it
Strange world, I'm getting through it
Strange world, we get it over
It's a strange world after all!
