Cool Water

Will Downing

Mmm, yeah, yeah, yeah
Mmm, yeah, yeah, yeahI'm a player no more, I gave that up for you
I know that makes you happy
When I come home at night, baby, my feelings are true
I'm not gamin' on your female sensibilities
Sayin' things, I just don't mean, no, noI intend to try to elevate in your life
It's like cool water when the sun is shining bright
So, let me ease your mind, put serenity in your life
It's like cool water when the sun is shining brightI'm hopin' that
Nothin' ever comes between the love we have
You and I are destined to be sittin' back
Growin' old together, talkin' 'bout the past
I'll bring you happiness at lastI intend to try to elevate in your life
It's like cool water when the sun is shining bright
So, let me ease your mind, put serenity in your life
It's like cool water when the sun is shining brightHappiness at last, yours and mine alone
Can't nobody take that from us, no, no, no, no
So, if ever you may thirst, if ever you may hurt
I'll be right there for you, babyI intend to try to elevate in your life
It's like cool water when the sun is shining bright
So, let me ease your mind, put serenity in your life
It's like cool water when the sun is shining brightJust like cool water, just like cool water
Just like cool water, just like cool waterI intend to try to elevate in your life
It's like cool water when the sun is shining bright
So, let me ease your mind, put serenity in your life
It's like cool water when the sun is shining brightGirl, let me be the one
Girl, let me be the one, girl, let me be
I wanna be the one, girl, let me be the one
Just like cool water, like cool waterI intend to try to elevate in your life
It's like cool water when the sun is shining bright
So, let me ease your mind, put serenity in your life
It's like cool water when the sun is shining bright
