Hollyweird

Poison

Welcome to my city, the girls are so damn pretty
Such a pity, they don't come for free
Just call me pimp daddy, I'll roll ya one big fatty
I think you're gonna like hangin' with meWelcome to my city of sin
I believe you're gonna fit right in
Yes, this is my city of sin
Your first lesson is about to beginNow you're living in the city of sin
You don't mind if I call you friend
Once you enter you can never get out of here
Welcome to HollyweirdI'm the king of the streets, I own the cops, the junkies and freaks
It's human wasteland I call home
Grow your hair to your shoes, trust me boy you just can't lose
Soon this be the only life you've ever knownWelcome to my city of sin
I believe you're gonna fit right in
Yes, this is my city of sin
Your first lesson is about to beginNow you're living in the city of sin
You don't mind if I call you friend
Once you enter you can never get out of here
Welcome to HollyweirdWelcome to my city of sin
I believe you're gonna fit right in
Yes, this is my city of sin
Your first lesson is about to beginNow you're living in the city of sin
You don't mind if I call you friend
Once you enter you can never get out of here
Welcome to Hollyweird
