

Kidnap Me

CRUISR

Got that bottom of the ocean
Pressure, pressure
Pushing down on me, you know
Got that out in outer space kind
Pressure, pressure
Thinking my body might explode
Shackle me up and lock it
I could live in your pocket
When you gonna kidnap me
When you gonna kidnap me
Take me away from here
I could see it so clear
When you gonna kidnap me
When you gonna kidnap me
So call the cops and tell them
I've gone missing, missing
They throw the case into the pile
And call my Mom and tell her
Don't you worry, worry
I'll see you in a little while
Shackle me up and lock it
I could live in your pocket
When you gonna kidnap me
When you gonna kidnap me
Take me away from here
I could see it so clear
When you gonna kidnap me
When you gonna kidnap me
Oh, ya never gonna catch us
Oh, ya never gonna catch us
Oh, ya never gonna catch us
And anyway I need to
And anyway I need you
Shackle me up and lock it
I could live in your pocket
When you gonna kidnap me
When you gonna kidnap me
Take me away from here
I could see it so clear

You gotta kidnap me
You gotta kidnap me
Tie me up to a chair
I could live in your hair
When you gonna kidnap me
When you gonna kidnap me
Take me away from here
I could see it so clear
You gotta kidnap me
You gotta kidnap me
