

# Vox Populi

## Sepultura

No soul over body  
No body without soul  
No brain, no information  
No vision, no protectionNo church in politics  
No profit in religion  
No suffering without cost  
All I believe is freedomNo minds without solutions  
No laws without our vote  
No lies in conversation  
Handle who you provokedCannot be, cannot feel  
Cannot think, cannot see  
Cannot live in dignityOur life, our way  
Our life, our way  
Our life, our wayCannot be, cannot feel  
Cannot think, cannot see  
Cannot live in dignityOur life, our way  
Our life, our way  
Our life, our wayWe are tired of being denied  
We are sick of being sick  
We are feeding all our anger  
We are tightening up our fistWe are failing to prevent  
Our fate from disillusion  
We are failing to protect  
Our lives from full destructionWe are bowing all our heads  
To doubtful leaderships  
We are moving all our trust  
To judge what is unjustCannot be, cannot feel  
Cannot think, cannot see  
Cannot live in dignityOur life, our way  
Our life, our way  
Our life, our wayCannot be, cannot feel  
Cannot think, cannot see  
Cannot live in dignityOur life, our way  
Our life, our way  
Our life, our wayExploitation, segregation  
All comes crashing down  
Exploitation, segregation  
All that is a falling nationCannot be, cannot feel  
Cannot think, cannot see

Cannot live in dignityOur life, our way  
Our life, our way  
Our life, our wayCannot be, cannot feel  
Cannot think, cannot see  
Cannot live in dignityOur life, our way  
Our life, our way  
Our life, our way
