

Where Has the Childhood Gone

Camouflage

I remember all the days gone by
Years before now when I was a child
We ran through the town and [Incomprehensible]
We did all the things which we had planned Where has it gone
Where has the childhood gone?
Where has it gone
Where has the childhood gone? Thousand times we played down in the street
We had fun while we played hide and seek
We ran through the town like we'll never do anymore
We did all the things we should ignore Where has it gone
Where has the childhood gone?
Where has it gone
Where has the childhood gone? Where has it gone
Where has the childhood gone?
Where has it gone
Where has the childhood gone? Where has it gone
Where has the childhood gone?
Where has it gone
Where has the childhood gone?
