

Heaven

Hayley Westenra

A star shining in a universe far away
My heart knows that we shall meet again some sweet day
And you, you will be the flame that burns in my breast
And oh, I know just by knowing you I was blessed
Yes, I was truly blessed Heaven, Heaven, ooh, waiting there for me
Heaven, Heaven, ooh, always let it be
Heaven, Heaven, ooh, waiting there for me
Heaven, Heaven, ooh, always let it be So why, tell me why the good die young, my old friend
I pray that Heaven waits for everyone in the end
And love, love is how we cross that bridge to the light
A star, that is what you are in my darkest night
Be always by my side Heaven, Heaven, ooh, waiting there for me
Heaven, Heaven, ooh, always let it be
A star shining brightly, ooh
A star shining brightly, always let it be Heaven, Heaven, ooh, waiting there for me
Heaven, Heaven, ooh, always let it be
