

# Carry It All Away

## Leeland

Face to the flame  
I feel the heat  
When I speak Your name Take this fear  
And melt it all away  
Fall to the floor You touch me  
And the tears start to pour  
And I don't feel the same anymore Here inside the fire  
One look in Your eyes  
And I'm not the same You carry it all away!  
You carry, carry it all away  
You carry, carry it all away  
You carry, carry it all away  
You carry, carry it all away All of my doubts  
All of my fears  
All of my pain erodes away  
When I behold Your face  
You carry it all away! You carry, carry it all away You carry, carry it all away Feet off the floor  
You lift me up  
And I start to soar  
I'm seeing things  
That I've never seen before  
You're inside my heart  
I'm inside Your arms  
And I'm not afraid  
You carry it all away!  
You carry, carry it all away  
You carry, carry it all away You carry, carry it all away  
You carry, carry it all away All of my doubts All of my fears  
All of my pain erodes away  
When I behold Your face You carry it all away!  
You carry, carry it all away  
You carry, carry it all away My tears are washed away  
My sorrow and my shame is  
On Your shoulders,  
It's on your shoulders I know You're in control  
My future and my hope is  
On Your shoulders  
It's on Your shoulders My tears are washed away  
My sorrow and my shame is On Your shoulders,

It's on your shoulders  
I know You're in control  
My future and my hope is  
On Your shouldersIt's on Your shoulders  
You carry, carry it all away  
You carry, carry it all away  
You carry, carry it all away  
You carry, carry it all awayAll of my doubts  
All of my fears  
All of my pain erodes away  
When I behold Your face  
You carry it all away!  
You carry, carry it all away  
You carry, carry it all away  
You carry, carry it all away  
You carry, carry it all away  
You carry, carry it all away  
You carry, carry it all away  
You carry, carry it all away  
You carry, carry it all awayEnd
