## The Early November

It's not fair  
To find you there  
Waiting on  
I don't care  
I care  
Way too much Wait and see  
Well, that you are inside of the  
Places that you knew you loved  
The only time you'll ever trust  
You are done  
It's all been done It's not fair  
To find you there  
Waiting for me  
I don't care  
'Cause I care way too much Wait and see  
Well, that you are inside of the  
Places that you knew you loved  
The only time you'll ever trust  
You are done  
It's all been done  
(2x) It's all been done (5x)
