

# Heart Fall Out

Ke\$ha

Hey Na Na  
There's a ghost under the table  
Hey Na Na  
I swear I heard him say your name aloud  
Hey Na Na  
Where'd you find those little cracks at  
Hey Na Na  
Bet you thought you could get past by now  
Bet you thought you could get past me now  
Hey Na Na Na Na Na

Don't let your heart fall out  
It's the only you got  
Don't let your face fall down  
Fall down, down  
Don't lose that only you sound  
That nobody has got  
Through the losses and founds  
And the turn arounds  
Don't let your heart fall out  
Fall out, out  
Don't let your heart fall out  
Fall out, out, out, out

Hey Na Na  
I can see you from the backseat  
Hey Na Na  
Don't you think you can get it past me now  
Hey Na Na  
I can hear it when you're speaking  
Hey Na Na  
Why do you cry when you are sleeping now  
Hey Na Na Na Na Na

Don't let your heart fall out  
It's the only you got  
Don't let your face fall down  
Fall down, down  
Don't lose that only you sound

That nobody has got  
Through the losses and founds  
And the turn arounds  
Don't let your heart fall out  
Fall out, out  
Don't let your heart fall out  
Fall out, out, out, out  
Don't let your heart fall out  
Fall out, out  
Don't let your heart fall out  
Fall out, out, out, out

If you call it, call it love  
You call it love, love  
You call it love, love  
Love, call it, call it love  
You call it love, love  
You call it, call it love  
You call it, call it love  
Love, call it, call it love

Don't let your heart fall out  
It's the only you got  
Don't let your face fall down  
Fall down, down  
Don't lose that only you sound  
That nobody has got  
Through the losses and founds  
And the turn arounds

Don't let your heart fall out  
It's the only you got  
Don't let your face fall down  
Fall down, down  
Don't lose that only you sound  
That nobody has got  
Through the losses and founds  
And the turn arounds  
Don't let your heart fall out  
Fall out
