Start Anew

Acid House Kings

Help me understand, and take me as I am
I'll change my point of view, anything for you
Got the whole world in our hand
Come on take a chance, start anew
Darling can't you see? something deep inside of me
I'm going to change your mind, just say you'll be mine
Got the whole world in our hand

Come on take a chance, start anew
Wide away all those tears, and please don't be upset
Tell me all your fears, this I will address
Got the whole world in our hand
Come on take a chance, start anew
Me and you (x5)
