Fuels The Comedy

KoĐ¯n

Oh my God! I'm feeling crazy man
What could it be?
As I walk into this place everyone's staring at me
Somehow I feel I've got a fucked up disease
As I part the seas
Fingers come out pointing at me
Do I make you laugh?
Do you think I'm funny? Ha ha
Or funny queer?
Bitch, get outta here
Let me make myself clear
I don't give a fuck
All you people can suck my motherfuckin' dick!
What's with the hostility?
Why is it so provoked?
You're living in a fantasy that's how you cope
Go ahead, kick the shit out of me
It just fuels the comedy
Feel that you're superior
I feel your just plain absurd
Ridiculous vanity that is blurred
Go ahead, kick the shit out of me
It just fuels the comedy
Oh my god! This shit is crazy man
Look at this scene as I watch these
Stupid people act like they are machines
They should really all drop their knees

Oh, the jealousy that's the one thing I guarantee
Do I make you laugh?
Do you think I'm funny? Ha ha
Or funny queer shit? Get out of here
Let me make myself clear
I don't give a fuck
All you people can suck my motherfuckin' dick!
What's with the hostility?
Why is it so provoked?
You're living in a fantasy that's how you cope
Go ahead, kick the shit out of me

It just fuels the comedy
Feel that you're superior
I feel your just plain absurd
Ridiculous vanity that is blurred
Go ahead, kick the shit out of me
It just fuels the comedy
What's with the hostility?
Why is it so provoked?
You're living in a fantasy that's how you cope
Go ahead, kick the shit out of me
It just fuels the comedy
Feel that you're superior
I feel your just plain absurd
Ridiculous vanity that is blurred
Go ahead, kick the shit out of me
It just fuels the comedy
