

# Break Out

## Julie Driscoll

Hello, is there anybody out there  
Anybody out there to hear me call  
Now I, I gotta take my chances  
I gotta take chances  
To get outta this place  
Explode into spaceI feel it coming  
Feel it in my soul, I'm bursting up  
Inside with my freight train heart  
I'm rolling down the track[Refrain:]  
Breakout, keep the fire burning  
Breakout, keep the wheel turning  
Breakout, I gotta have my freedom  
Breakout, I've been waiting  
Breakout, anticipating  
Breakout, I gotta have my freedomTonight chains are gonna break down  
There'll be a shakedown  
Breaking through the barriers  
When I, when I'm where I wanna be  
No more under lock and key  
There's no going back  
No turning backI feel it coming  
Feel it in my soul, I'm bursting up  
Inside with my freight train heart  
I'm rolling down the track[Refrain]I feel the hunger rising  
I feel it in my bones and in my heart  
And nothing stops me now[Refrain]
