

Teach Me To Whisper

Devildriver

Trouble is on its way, it's on its way
Another day, another decision
One that eventually affects us both
Teach me to whisper 'cause I feel like screaming
Teach me to whisper loud
Anger and hatred are their oars
Revenge their vessel
Be strong, be patient
Making the best of a bad situation
Making the best of
Making the best of a bad situation
Making the best of
This is your conscience speaking, spare your spirit
Trouble is on its way, it's on its way
Teach me to whisper 'cause I feel like screaming
Teach me to whisper loud
Anger and hatred are their oars
Revenge their vessel
Be strong, be patient
Making the best of a bad situation
Making the best of
Making the best of a bad situation
Making the best of
Behold the destroyer
By the hand of man death be delivered
Behold the destroyer
By the hand of man death be delivered
Anger and hatred are their oars
Revenge their vessel
Be strong, be patient
Making the best of a bad situation
Making the best of
Making the best of a bad situation
Making the best of
