

# Ese Loco

## Slightly Stoopid

But he's that one, he's just a manly ese loco  
With a plan, he's got them girls  
He's got the buds  
The triple loaded blunts At first he stacks and then he packs  
And puts on his surf racks  
Hits them waves ten feet high  
And they're pounding on the shore We never wanted this  
He never needed that  
It's time we take right back  
The problems that he's got to give us He goes to parties, pushin', shovin' kids  
'N drinkin' from the pool  
He's throwin' bottles in the air  
Sometimes he thinks it's really cool He's never wanted, never needed  
Never bled, common sense  
See the writings on the wall  
And Kyle was pullin' down his pants He never wanted this  
He never needed that  
It's time we take that back  
The problems that he's got to give us He is the one, he's just a manly ese loco  
With a plan, he's got the girls  
He's got the buds  
The triple loaded blunts At first he stacks and then he packs  
And puts on his surf racks  
Hits them waves ten feet high  
And they're pounding on the shore  
(Sobriety) (Let's get faded)  
They're pounding on that shore  
(Sobriety)  
(Let's get faded, sobriety) But let me give it to you one more time  
(So faded)  
You paddle out so far  
You think that your gonna die  
(Sobriety) You see them waves  
They're breaking right over your head  
(Oh, be so heavy)  
But if your caught inside  
You're bound to be dead We never wanted this  
He never needed that  
It's time we take right back

The problems that he's got to give us  
He never wanted this  
He never needed that  
It's time we take right back  
The problems that he's got to give us
