

# H20

## OverCoat

Upper body, might work for that  
But you ain't a model where your focus at  
Know too many broads, going way too hard  
So have a glass of water for your thirsty ass  
    Like that, your thirsty ass  
    Know it's a problem and we notice that  
You be goin' too hard and never know when to stop  
    Have a glass of water for your thirsty ass  
    Like that, your thirsty ass  
    Know it's a problem and we notice that  
You be goin' too hard and never know when to stop  
    Have a glass of water for your thirsty ass  
    Like that
