

Ride On

The High Kings

Sure you ride the finest horse Ive ever seen
Standing sixteen one or two, with eyes wild and green
You ride the horse so well, hands light to the touch
I could never go with you, no matter how I wanted to Ride on, see you, I could never go with you
No matter how I wanted to
Ride on, see you, I could never go with you
No matter how I wanted to When you ride into the night without a trace behind
Run you claw along my gut one last time
I turn to face an empty space where you used to lie
I look for the spark that lights the night
Through a teardrop in my eye
Ride on, see you, I could never go with you
No matter how I wanted to
Ride on, see you, I could never go with you
No matter how I wanted to Ride on, see you, I could never go with you
No matter how I wanted to
Ride on, see you, I could never go with you
No matter how I wanted to
I could never go with you
No matter how I wanted to
Oh, I could never go with you
No matter how I wanted to
