Baby Why

Richard Parker

(*Intro*)

Verse 1/

I just dont know what do
When it comes to you, baby
My mind goes crazy
And my heart does too babe
But girl you know its true
All i really want was you,you,you
Tell me one more thing
Or tell me why oh why

Chorus/

Oh baby baby why
You left me behind
And broke this heart of mine
I dont know what to do
When it comes to you, babe
Oh its so hard, since we've been apart
I keep on holding on
I know its for real
I wish time stayed still

Verse 2/

And now i feel like a fool
A fool thats in love with you
My heart is aching
And its broke into babe
But girl im missing you
All i really want is you,you,you
Tell me one more thing
Tell me why oh why

(*Chorus*)

AZI/

Thinking back i could never really understand
Heartships accured in relationships like sinkingships
I used to dismissive oblivious
Pasamistic to the fact
How for i slip
But always knew that love is blind
That you and me can never be in twine
Now im sitting here reminsing
Its a distant memory

(*Chorus*)
