

I've Been Searching

ISLAND

I sung you a song
I settled my tone
The colours we made as your lover he lay...He lay
He lay
He layI've been searching, I found out you got lost
You got lost
I've been searching, see my memories they lastLast I saw you were fuelling the fire
With your world my desire
The colours we made as your lover he layOh he lay
Oh he lay
Oh he lay
Oh he layI've been searching, I found out you got lost
You got lost
I've been searching, see my memories they last
You got lost
I've been searching, I found out you got lost
You got lost
I've been searching, see my memories they last
You got lost
I've been searching, I found out you got lost
You got lost
