Pendulum

Diecast

You never understood any given day could be your final one
No room for regret, don't ever forget your being followed byThe swinging Pendulum, watch as it grows so close
Fall to the Swinging Pendulum, watch as it grows so close until you are goneWe're chased all through time not knowing one day from the next
Numbers coming up, when will you cut the golden thread
Maybe it's not my time, maye it's not your time
But we should live our lives in case there's no tommorrow
I won't be another statistic I'll be ready for the coming of theSwinging Pendulum, watch as it grows so close
Fall to the swinging Pendulum, watch as it grows so close until you are goneDays turn into months, turn into years realize that we cannot live forever
Days turn into months, turn into years realize that we cannot live FOREVER!
Days turn into months, turn into years realize that we cannot live forever
Days turn into months, turn into years realize that we cannot live foreverYou never understood any given day could be your final one
No room for regret, don't ever forget you're being followed byThe Swinging pendulum, watch as it grows so close
Fall to the swinging pendulum, watch as it grows so close until you are goneMaybe it's not my time, maybe it's not your time,
But we should live our lives in case there's no tommorrow
Maybe it's not my time, maybe it's not your time,
But we should live our lives in case there's no tommorrow
