

1% (Live 1990)

Jane's Addiction

All the people
I know wanna be left alone
Some people I don't know?
They won't to leave you alone
I guess you gotta be
Just be just like them Now the biggest gang
I know they call the government
And a gang is a weapon
That you trade your mind for
You gotta be just be just like them Ya know the gang and the government
No different
The gang and the government
No different
The gang and the government
No different It makes me 1%
It makes me 1%
Oh God Trouble comes down
Like a foot stepping heavy
Shake your fist at the bitch
Or wave your money You gotta be right
You gotta be right
Don't be no
Supper for a big fish
With the big lip
And the over bite, bite
You gotta bite All the people
I know wanna be left alone
Some people I don't know?
They want to leave you alone
I guess you gotta be
Just be just like them The gang and the government
Are no different
The gang and the government
No different
The gang and the government
No different That makes me 1%
It makes me 1%
It makes me only 1%

That makes me 1%
