

# Running Out of Time

## BarlowGirl

We are not blind, we know the truth  
Still we don't stand, still we don't choose  
We'd rather stay, so comfortable  
Stuck in our world under control We may not pull the trigger but we  
Stand by and watch then pretend not to see  
Silence is worse then evil done  
What in the world have we become? Can't you see that this is war so pick your side?  
It's time to move not time to hide  
Don't let lies make up your mind  
'Cause can't you see we're running out of time? Tomorrow will come and one day we'll see  
The choices we made, made history  
Before it's too late find where you stand  
Let's use our voice while we still can Can't you see that this is war so pick your side?  
It's time to move not time to hide  
Don't let lies make up your mind  
'Cause can't you see we're running out of time? Running out of time  
Running out of time Can't you see that this is war so pick your side?  
It's time to move not time to hide  
Don't let lies make up your mind  
'Cause can't you see we're running out of time? Running out of time  
Running out of time  
Running out of time
