Lucky Ones

Union J

This one is for all the dreamers
The freak shows and all the divas
Bring on the inbetweeners
Stand up and come out from the dark
We know who we are
Yeah we're the lucky onesThis one is for all the zeros
The misfits you're my heroes
Put down my alter ego
Okay we're broken and we're scared
Now we're happy as we are
Yeah we're the lucky onesCause we got the love and we got the heart
We're all the above and it's from the start
We're here till the end
We are who we are (we are who we are)
We're the lucky ones
La la la la la la la la
We are who we are
We're the lucky ones
La la la la la la la la
We are who we are
We're the lucky onesYoung hearts beneath your old skin
I see your eyes still sparkling
You know that you're not done yet
So let's go but just for one last time
Come with us tonight
Cause we're the lucky onesCause we got the love and we got the heart
We're all the above and it's from the start
We're here till the end
We are who we are (we are who we are)
We're the lucky ones
La la la la la la la la
We are who we are
We're the lucky ones
La la la la la la la la
We are who we are
We're the lucky onesLet me out out of this cage
And jump right off off of this stage
I'm a shooting star
I'm a shock wave

We're a work of art
Look what we've madeLet me out out of this cage
And jump right off off of this stage
I'm a shooting star
I'm a shock wave
We're a work of art
Look what we've made (Look what we've made, Look what we've made, Look what we've made, Look what we've made)La la la la la la la
We are who we are
We're the lucky onesLa la la la la la la
We are who we are
We're the lucky ones
Cause we got the love and we got the heart
We're all the above and it's from the start
We're here till the end
We are who we are (we are who we are)
We're the lucky ones
