# Our Time

## Lily Allen

It's 2am so I just stopped the music
I'm still swaying like I was on a cruise ship
Took the words straight out of my mouth
Come on everybody back to my house
Take my hand now, you're coming over
It doesn't matter you can sleep on my sofa
Bring some fags and brings some Rizlas
We're gonna party like it's nobody's businessLet your hair down now
It's the end of the week
And this is our time now
Let's forget everything
And put your glad-rags on
Dressing up like we're queens of the nightAnd we just wanna dance the night away
We don't give a damn what people say
We've had enough so turn it up
Tonight we're taking over
And we will all drink 'til we lose our minds
Wanna lose sense of space and time
We're going through, it's how we do
Tonight we're taking overI feel fly
I'm rockin' Kenzo
I'll get high but I ain't doin' benzos
I might dance like your auntie
I don't care 'cause we're here to party
I got a quite good record collection
Yeah I got everything that came out on Def Jam
I've got hip-hop, I've got dub step
I'll take us right through from sunrise to sunsetLet your hair down now
It's the end of the week
And this is our time now
Let's forget everything
And put your glad-rags on
Dressing up like we're queens of the nightAnd we just wanna dance the night away
We don't give a damn what people say
We've had enough so turn it up
Tonight we're taking over
And we will all drink 'til we lose our minds
Wanna lose sense of space and time
We're going through, it's how we do

Tonight we're taking overDrink a little more
Dance a little harder
Shout a little louder if you like
Move a little faster
Stand a little taller
Do whatever makes you feel alrightDrink a little more
Dance a little harder
Shout a little louder if you like
Move a little faster
Stand a little taller
Do whatever makes you feel alrightGo harder
Go harder nowGo harder
Go harder nowAnd we just wanna dance the night away
We don't give a damn what people say
We've had enough so turn it up
Tonight we're taking over
And we will all drink 'til we lose our minds
Wanna lose sense of space and time
We're going through, it's how we do
Tonight we're taking overAnd we just wanna dance the night away
We don't give a damn what people say
We've had enough so turn it up
Tonight we're taking over
And we will all drink 'til we lose our minds
Wanna lose sense of space and time
We're going through, it's how we do
Tonight we're taking over
