

Withdraw

Bedhead

We try to laugh a lot
thinking there's nothing more
when nothing feels like living
just waiting for something more
There's blood on the table cloth
it's there on the pillow case
Leave it all here
leave this place
it's not the same
When there's nothing to do but try to act like nothing's changed
Just relax
just stop thinking
Put it out
if you know it's too much
I don't know
that's all I can say
and it means nothing
because I'm not in your place
