Sunset Babies (all Got Rabies)

Alice Cooper

They're running in packs on a Saturday night
They got their own bark and they got their own bite
Waiting in line, I can't wait no more, no
Slip right in, get kicked out the back door
I don't know if it's possible to tame one
I don't know if she'll follow me home
I don't know what it is about her
Sunset babies all got rabies
Sunset babies all got rabies
Got my shot
They got a sixth sense, they know why you're here
They can smell the fear through the smoke and the beer
They're a vicious breed and they just don't care
You think you're in but you're getting nowhere
I don't know if it's safe to pet one

I don't know, to go for my throat
I don't know what it is about them
Sunset babies all got rabies
Sunset babies all got rabies
And I'd buy her a diamond collar
If she'd only throw me a bone
Here I am alone
Sunset babies all got rabies
Sunset babies all got rabies
Got my shot
And she's supposed
To be a man's best friend
Why she play around
Now I gotta put that old girl down
