Ariana

Dylan Matthew

I told you that my minds made up right now right now

I told that I'd never let you go somehow somehow

If I told you it would never be the same would you believe me would you believe me

You tellin me that you want me to let you be

But all I really want is you laying next to me

Look me in my eyes tell me are you ok

Can we sit in silence all day

What do I have to do just to make you stay

Ariana

My baby

We run away

To places

That we've never seen

But you trust me

And you know that I don't smoke weed

But I can get you high
When you're feelin low
And for you I'd drive anywhere you wanna go
I'm sorry that I'm always on the road
I promise I'm thinkin of you at every show

I just wanna be with you
You just wanna be with me
if I sing it it's true
When I see you I can't breathe

Ariana
Ariana

I just wanna be with you
You just wanna be with me
if I sing it it's true
When I see you I can't breathe

Ariana
Ariana

So if you wanna smoke that's cool with me

Take a pill, live in ecstasy

You have dreams of acting I can see you on the movie screen

All I want are those 4am adventures with you next to me

Your body is poetry

I can picture you tangled in my sheets

Don't do it

Please don't do it

Your brain is a maze oh I just can't find my way through it

I'm stuck between fighting for you or makin my conclusion

That I don't deserve you I guess that it's time to face the music

I'm just writin these words I'm just thinking these words
Is it wrong if I said
I want you in my bed
I want me in your head

I just wanna be with you
You just wanna be with me
if I sing it it's true
When I see you I can't breathe

Ariana
