

# Wanna Know You

## Pepper

I saw a street corner angel  
Platinum problems pressed against the wall  
She paid her dues, bought stiletto shoes  
Had a real mean pimp named Paul Well Paul tied her up to the railroad tracks  
'Cause he didn't get the money in time  
I heard her screamin' loud from the other side of town  
And the train was comin' down the line Exclamation points jumped out her eyes  
Rips all across her fishnet thighs  
Big tears rolling as I'm strugglin' to cut her loose She had a little bit of karma above her left eye  
It hit me in the shape of a scar  
I tried to help her out with the ride back home  
But she jumped right outta my car Baby, I just really wanna know you  
Can't keep me away, not if you try  
Got lost in your town, ain't in no hurry  
I'm faster than your man, he'll never catch me Well since that night I really thought about things  
I fell for an angel with the dirty wings  
Now I have to find her, let her know how I feel  
Gotta tighten up some business before I make it real Paul didn't like that I pulled her off the tracks  
Real late last Saturday night  
I knew he was mad when I got to the pad  
'Cause he left me a real nice surprise Dropped a little message in my mailbox  
He told me where to meet him, that we had to talk  
He said I shouldn't mess with his curly locks  
And if I did again he'd pump me full of shots I took that meeting with the pimp named Paul  
Stabbed him in the heart and watched him fall  
Went lookin' for my angel all over the place  
I found her in the movie by Andrew Blake Baby, I just really wanna know you  
Can't keep me away, not if you try  
Got lost in your town, ain't in no hurry  
I'm faster than your man, he'll never catch me Baby, I just really wanna know you  
Can't keep me away, not if you try  
Got lost in your town, ain't in no hurry  
I'm faster than your man, he'll never catch me
