

# Freedom Fighters

## P.o.d.

Today I heard what them people say  
Then want to live free greedily, with everyone to pay  
You play under the sun while others fight and dies away  
But I say if you don't like it this way, then why stay? Go away

Freedom fighters

Today I heard what them people say  
Them say, "The man came in and he took our choice away"  
You portray selfishness and hate while some prepare to die today  
I say you fade away, appreciate life and liberate

We have the right to live in peace  
And you must fight for what you keep  
If what you keep holds truth inside  
Stand up, defend lay down and die  
We have the right to live in peace  
You must fight for what you keep  
If what you keep holds truth inside

Stand up, defend, or lay down and die
