Sabotage

Amy Stroup

I don't have time to sabotage anything else
I don't have time to sabotage anything else
I've gotta do the right thing now
I've gotta find the right way out
I've gotta do the right thing now
I've gotta find the right way outI don't have time to sabotage anything else
I don't have time to sabotage anything else
I've gotta do the right thing now
I've gotta find the right way out
I've gotta do the right thing now
I've gotta find the right way outSecrets unglued
Who's a fool, who's a fool, hey hey
Put me away
I can love, I can love, I can hate, hey heyI've gotta do the right thing now
I've gotta find the right way out
I've gotta do the right thing now
I've gotta find the right way out
