

Terrified

Quiet Riot

Here in this town, safe and guarded
We call it home, a feeling that we share
Now leave this place, clinging to hope
 In this midnight prayer
If we hold our breath, float beyond this
 We'll be reborn, I will carry us home
Are you still alive? Are you scared inside?
 Providence is blind when you're terrified
Are you still alive? Are you scared inside?
 When we've reached the end of the road
 I will carry us home
 Oh no, if all our sin was only a hope
 And meaningless and true
 Now will I expire holding the world
 In safety for you
 If we make it through and I can save you
 With this heart I know, I will carry us home
 Are you still alive? Are you scared inside?
 Providence is blind when you're terrified
 Are you still alive? Are you scared inside?
 When we've reached the end of the road
 (Reached the end of the road)
 I will carry us home
 And now I'm so far away from you
 Will I be making any difference
 After leaving you all alone?
 And now I'm so far away from home
 Can I justify my actions
 After leaving you here in this town?
 Safe and guarded, we call it home
 A feeling that we shared
 Are you still alive? Are you scared inside?
 Providence is blind when you're terrified
 Are you still alive? If you're scared inside
 (I will carry you home)
 I will carry us home
 Are you still alive? Are you scared inside?
 Providence is blind when you're terrified
 Are you still alive? Are you scared inside?

When we've reached the end of the road
(Reached the end of the road)
When we've reached the end of the road
(Reached the end of the road)
I will carry us home, carry us home
