

You Want Me

Royal Blood

You want me, you got me
Got me trapped, right between your teeth
Cause when you're gone, I'm empty
Empty and high and underneathWay out, way out
I've lost ahead
So don't let me lose you again
Say now, it's late now
Leave me alone cause you wanted toTake your time
Just don't hold me back
Cause I'm falling slow and losing track
Just to want you againYou want me, you got me
Stuck to your heel like bubble gum
Treat me like blast a sin
Spat out and chewed straight out your tongueWay out, way out
I've lost ahead
Don't let me lose you again
Say now, it's late now
Leave me alone cause I'm starting againTake your time
Just don't hold me back
Cause I'm falling slow and losing track
Just to want you againWay out, way out
I've lost ahead
Don't let me lose you againTake your time
Just don't hold me back
Cause I'm falling slow and losing track
Cause I'm falling slow and losing track
Yeah, I'm falling slow and losing track
Just to want you again
