

# Everybody Knows

[Idina Menzel](#)

I can feel you breathe  
Hear your heartbeat  
I love the sound, I'm hearing it loud  
I don't wanna sleep  
If I'm dreaming, I'll miss tonight Ah, found the piece, the missing part  
Found the hands to heal these broken  
Bones, you're the key [?] my heart  
It's beating loud so everybody knows Hold me like a fire  
Under you I can't feel the rain  
I can't feel the pain  
Make what's left all right  
Take what's broken and build it again Ah, found the piece, the missing part  
Found the hands to heal these broken  
Bones, you're the key [?] my heart  
It's beating loud so everybody knows Be the light that you are  
Shine like fire in my heart  
Hold me tight in the dark  
Oh my God, I can feel it Be the light that you are  
Shine like fire in my heart  
Hold me tight in the dark  
Oh my God, I can feel it Be the light that you are  
Shine like fire in my heart  
Hold me tight in the dark  
Oh my God, I can feel it Ah, found the piece, the missing part  
Found the hands to heal these broken  
Bones, you're the key [?] my heart  
It's beating loud so everybody knows Ah, found the piece, the missing part  
Found the hands to heal these broken  
Bones, you're the key [?] my heart  
It's beating loud so everybody knows
