

Heaven Tonight

Cheap Trick

Down the line, don't go over
There's a limit, you went over
So much time, time runs out
Time ran out, make it down
Would you like to go to heaven tonight?
Would you like to go to heaven tonight?
Oh oh oh Downed the line, couldn't get much
Couldn't get much, higher if you tried
And tried and tried, you're as guilty
It's the crime, oh, oh, it's a crime You can never come down, you can never come down
You can never come down, you can never come down
Down inside-you're getting nervous
You've never been this high before, oh no
