

Safe In These Arms

Jimmy Somerville

Here in these arms
Our history began
Before there was you
There was thirst in my heart Look at my lips, you will see
I have drunk from the river
That flows to the sea
Of true love Safe in these arms, arms
That's where I want to be
Safe in these arms, arms
That's where I want to be Safe in these arms, arms
That's where I want to be
Safe from the harm in these arms
That's where I want to be If I may die
Let it be here with you
For here with you
I shall surely be safe Safe from the hate, from the lies
From the vultures of Christ
I need no Gods
I have no fears, I have you Safe in these arms, arms
That's where I want to be
Safe in these arms, arms
That's where I want to be Safe in these arms, arms
That's where I want to be
Safe from the harm in these arms
That's where I want to be, yeah [Incomprehensible] Safe in these arms, arms
That's where I want to be
Safe in these arms, arms
That's where I want to be Safe in these arms, arms
That's where I want to be
Safe from the harm in these arms
That's where I want to be Never let me, never let me
Say you'll never let me go
Never let me, never let me
Say you'll never let me go Say you'll never let me
Say you'll never let me go
Say you'll never let me
Say you'll never let me go Take me in your arms
Take me in your arms
Take me in your arms

And say you'll never let me goTake me in your arms and hold me
Take me in your arms and hold me
Take me in your arms and hold me
Say you'll never let me goSay you'll never
Say you'll never
Say you'll never let me go
Take me in your arms and hold me
Never, never let me go
