

I Am the World

Takida

A sacrifice to live by
Like the slave under a dark mind
I will always search my way
I can see it so bright
It's spending time in your life
Getting stronger day by day
The key will soon be turning
Into that fire burning wild
So much for that pain of learning
Here I come, the devil's child
Demons crying out your name,
My voice in vengence set to play
I feel my heartbeat rising, get up, pa pa
Get up, pa pa
Now the train has brought us too late
Now everyone there has got to pay
Leave for me, I am the world
Acceptance is our breaktrough
Please be your fall thourgh
Dying in my arms
I said i will never love you
But maybe I'll show you the real you
Listen to my hollow heart
