

On Your Speakers

[Damone](#)

Promise me that you'll be okay
Keep in touch if miles away
I'm hangin' in the way that I know how
Take good care and I'll see you soon
Ring you up this afternoon
I'm cool with how things have to be right now
You'll hear me on your speakers
Everywhere you go
Wearing your worn out sneakers
Kickin' down the road
Just take this song until I see you at the show
Whoa, I'm sending you a message
Whoa, you're gonna be mine
Whoa, don't mean to be obsessive
Every thing's fine
Me and Mike went out last night
Party crashed and watched the fights
In front of every open bar room door
Things just aren't the same 'round here
Like they were at this time last year
I guess I don't feel welcome anymore
You'll hear me on your speakers
Everywhere you go
Wearing your worn out sneakers
Kickin' down the road
Just take this song until I see you at the show
Whoa, I'm sending you a message
Whoa, you're gonna be mine
Whoa, don't mean to be obsessive
Every thing's fine, just fine
Just take this song until I see you at the show
Whoa, I'm sending you a message
Whoa, you're gonna be mine
Whoa, don't mean to be obsessive
Every thing's fine
Whoa, I'm sending you a message
Whoa, you're gonna be mine
Whoa, don't mean to be obsessive
Every thing's fine, just fine
