

# Inside the Fall

## Katatonia

All noise that breaks my head  
I ran along the water  
You didn't really notice  
I've left and gone away You're like waiting  
Incurable disease  
Left me waiting  
Inside the fall All waves that traps my breath  
I should be in your sight  
But you didn't really notice  
That I've left and gone away
