

Quiet Crown

Idlewild

I want to fly a little to the right
I'll never get to crows dell
And I want to stay awake all night to realize
(I'm not Ben Hoy)What should I take with me to the north?
It's the good north
The promised success, the appropriate north
It's the good northApparently, you're happy, you've realized
I'm meant to be, unhappy, I've realized
(I'm not Ben Hoy)What should I take with me to the north?
It's the good north
The promised success, the appropriate north
It's the good north'Cause I want to reunite, I'll never save
(What will you save?)
When everything is broken now
I want to reunite, I'll never save
(What will you save?)
Everything is brokenI want to fly a little to the right
I'll never get to crows dell
And I want to stay awake all night to realize
(I'm not Ben Hoy)What should I take with me to the north?
It's the good north
The promised success, the appropriate north
It's the good north'Cause I want to reunite, I'll never save
(What will you save?)
When everything is broken now
I want to reunite I'll never save
(What will you save?)
When everything is broken nowI want to reunite, I'll never save
(What will you save?)
When everything is broken now
I want to reunite I'll never save
(What will you save?)
When everything is broken nowEverything is broken now
Everything is broken nowEverything's gone runnin'
Everything's gone runnin'
Everything's gone runnin' without a sound
Everything's gone runnin'
Everything's gone runnin'
Everything's gone runnin' without a sound
