[Chorus]

Too hot, she's hot melt stacks

Too hot, she's hot all of that

Too hot, she's hot that's fact

Too hot, she's hot that is that You can see it in her eyes baby got that fire

Pretty face like Lauren body like Mya

I hit her with that thug passion

I'mma rida hit it good

Have her screaming high notes like Mariah hold up

Now watch her shut it down, say watch her shut it down

These other hoes know they gotta go when she come around

Say my name, say my name so they know it's me

You got a nigga feenin like Jodeci, Turn up

All my niggas know when she hits the floor

That she steals the show

All my niggas know when she hits the door

That y'all gots to go [Chorus] I tell you what

She burns it up

Every day and night yeah when we cut

Don't need no hose no fire truck

You know she's ready and she ready enough

We blaze it up we burns it down

Her body's hot I cool it down

She takes her car and cruise her town

And now y'all hood rats trying to hate on her now

All my niggas know when she hits the floor

That she steals the show

All my niggas know when she hits the door

That ya'll gots to go [Chorus] I said baby you a bad bitch excuse my language

And girl that dress so tight lookin like it's painted

The way ya body move a make a nigga pass out

Now baby drop to the floor and poke that ass out

I say them heels got them legs lookin fire baby
And if I said you weren't the truth I'd be a liar baby
Got me thinking to myself
I love the way you walk
I love that little attitude and the way you talk
Now picture me and you headed back to my house on the hill
Lookin at the moon while you tell me how you feel
Cause you know we gotta keep it on the low
With everything we do
But everything is good when it's me and you
What's up baby We blaze it up we burn it down
Her body's hot I cool it down
She takes her car and cruise her town
And now y'all hood rats trying to hate on her now
